Presentation slides should be designed for people to see and not for them to read.

Why do we need to pay so much attention to our presentation slides?

The reason is simple: You want **to get your ideas across quicker, achieve higher retention, increase acceptance rate, and finally close.** And of course, you want to **wow your audience.**

This two-day workshop provides the concepts and techniques for developing presentations that are **STICKY**, combines with **EFFECTIVE DELIVERY SKILLS** to **ATTRACT THE ATTENTION OF YOUR AUDIENCES** as well as achieving black belt designed presentations which will create lasting impressions.

The facilitation of this workshop will be interactive and engaging with lots of participation and idea sharing including role-play for immediate application of concepts and showcase of examples to ensure well understanding.

*** During each step of learning, you will learn both design & analytic thinking.**
